# Audit Findings

## Audit Narrative

*The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.*

### PRE-AUDIT PREPARATION

Prior to the on-site visit, two employees of the Third Judicial District, Department of Correctional Services, conducted an on-site "pre-audit" of the facility to ensure PREA compliance. The PREA Manager forwarded to the auditor all policy and supporting documentation, including the completed Pre-Audit Questionnaire, for examination prior to the on-site visit. The policy and documentation was in the form of Third Judicial District policy and other forms/memos, etc. All forwarded documentation and the results of the "pre-audit" were discussed with the auditor prior to the beginning of the audit.

### ENTRANCE BRIEFING AND TOUR (ON-SITE AUDIT)-FIRST DAY

The on-site PREA audit of the Sioux City Residential Treatment Facility (SCRTF), Sioux City, Iowa, was conducted June 19-20, 2018. The audit was completed by The Nakamoto Group, Inc. certified auditor William Willingham. This is the second PREA audit for this facility. An entrance meeting was held the first day of the audit to discuss any concerns regarding the audit process and to finalize the facility tour and interview schedules. The following persons were in attendance: both Resident Managers (one is the PREA Compliance Manager). The SCRTF is comprised of a community minimum security facility and is considered a work release program for adult males and females only. Participants in this program are referred to as residents or clients. After the meeting, a comprehensive tour and thorough inspection of the facility was completed. The tour included the intake processing area, housing units, Recreation, Food Service, facility support areas, the Visiting Room and meeting areas. The auditor observed the facility configuration, location of cameras, staff supervision of clients, housing configurations (including shower/toilet areas), security monitoring, client entrance and search procedures and client program participation. During the tour, it was noted that there was sufficient staffing, security mirrors and surveillance cameras to ensure a safe environment for clients and staff. Clients were able to shower, dress and use the toilet facilities without exposing themselves to employees of the opposite gender. Informal and formal conversations/interviews with employees and clients regarding the PREA standards were conducted. Postings, pertaining to PREA violation reporting and the agency's zero tolerance policy for sexual abuse and sexual harassment, were prominently displayed in both housing units, meeting areas and throughout the facility. Audit notice postings with the PREA auditors' contact information were also located in the same areas. These notices were posted in

April 2018. There were no letters mailed to the auditor as a result of the audit postings in the housing units. The SCRTF has been accredited by the Iowa Department of Corrections.

## STAFF-CLIENT INTERVIEWS-SECOND DAY

A total of twelve randomly selected correctional staff members were interviewed, including those working the second and third shifts. All were aware of the agency's zero tolerance policy and of their responsibilities to protect clients from sexual abuse/sexual harassment. Additionally, they were able to explain their new employee and annual PREA training and their duties as first responders as part of a coordinated response. The agency Director was also interviewed. All specialized staff were also interviewed and included the Resident Manager/PREA Compliance Manager, another Resident Manager, two Investigators, a Human Resource Manager and Intake Staff. There is no PREA Coordinator as the SCRTF is the only facility in the District and there are no contracts for the incarceration of clients. The facility has no medical or mental health staff or a protective custody unit. One volunteer, a Sexual Assault Nurse Examiner (SANE) from a local hospital and a community victim advocate were also interviewed. No contractors were available to be interviewed. All interviewed staff and the volunteer demonstrated an understanding of the PREA and their responsibilities under this program, relative to their position in or with the organization and employment status. No staff or volunteers refused to be interviewed.

A total of sixteen clients (three female and thirteen male) were selected to be interviewed. The interviewed clients were of various ages, nationalities and ethnic backgrounds. No clients self-identified as being transgender, intersex, bisexual or being previous victims of sexual abuse, during the intake process. The facility had no clients who were limited English proficient. Four disabled clients (three with cognitive disabilities and one with physical disabilities) and one who self-identified as being gay were also interviewed. No clients interviewed claimed prior sexual aggression during the intake screening process and none requested therapy. The rest of the interviewed clients were randomly selected. Overall, all clients interviewed demonstrated a good understanding of the PREA compliance program, the intake screening process, the prevention and protection process and reporting mechanisms. Accordingly, all education requirements under the PREA were met. The clients further stated that staff members were responsive to their needs, that female and male staff announced their presence when entering the housing areas and that they felt safe at the facility. No clients refused to be interviewed.

## INVESTIGATIONS

There were no allegations of sexual abuse or sexual harassment within the last twelve months; therefore, no investigations were required to be conducted.

## Facility Characteristics

*The auditor's description of the audited facility should include details about the facility type, demographics and size of the resident, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special*

*housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.*

The Third Judicial District (TDJ), Department of Correctional Services, is one of eight judicial district correctional programs currently existing within the state of Iowa. These are the result of the statewide development of correctional programs, with the objectives of providing total services at the community-based level to correctional clients, the court system and ultimately the public. The Third Judicial District operates its programs as mandated by Chapter 905 of the Code of Iowa. Additionally, a Board of Directors with established By-Laws governs the District. The Board of Directors is comprised of a county supervisor from each county in the district, a judicial appointee and two citizen advisory representatives. The Department of Correctional Services, as it exists in this judicial district, provides the usual historic services and, in addition, some innovative and functional services. The Sioux City Residential Treatment Facility, operated by the TJD, is a single-level structure which began serving clients in 1992 and was expanded in 2012. The facility is located in downtown Sioux City, Iowa. The program provides housing and around-the-clock supervision for clients demonstrating an inability or unwillingness to function under less restrictive supervision. Clients can be placed in the SCRTF as a condition of probation or parole, or as a transferee from the Iowa Department of Corrections (IDOC). Clients are expected to secure employment in the local community. Clients participate in programming to address the re-entry needs of each individual. These programs include HiSET (GED) testing preparation, mental health counseling, substance abuse treatment, sex abuse treatment, employment skills training, anger and stress management techniques instruction and life-skills training. Additional services include individual assessment programs, employment assistance and housing placement assistance. Clients receive these services in the community. Meals are served at the facility. Living areas consist of multiple occupancy rooms with shared showers and bathrooms. There are recreational activities at the facility, and religious programs are only available in the community. The facility also has a classroom, leisure activity areas, a TV viewing area and a Visiting Room.

## Summary of Audit Findings

*The summary should include the number of standards exceeded, number of standards met, and number of standards not met, **along with a list of each of the standards in each category.** If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.*

**Auditor Note:** *No standard should be found to be “Not Applicable” or “NA”. A compliance determination must be made for each standard.*

When the on-site audit was completed, another meeting was held with the Residential Managers and District Director to discuss audit findings. The facility was found to be fully compliant with the PREA. The auditor had been provided with extensive and lengthy files prior

to and during the audit for review to support a conclusion that the facility was in compliance with the PREA. All interviews and observations also supported compliance. Facility staff members were found to be extremely courteous, cooperative and professional. Staff morale appeared to be very good and the observed staff/client relationships were determined to be excellent. All areas of the facility were observed to be well maintained, especially considering the age of the SCRTF. At the conclusion of the audit, the auditor thanked the Residential Managers and staff for their hard work and dedication to the PREA audit process.

Third Judicial District (TJD) policies Residential (Res) #3, PERS #3 and PREA-100 address the requirements identified in this standard. The Agency has a single facility (SCRTF), therefore, no PREA Coordinator. The Agency's zero tolerance against sexual abuse is clearly established and the policy also outlines the Agency's approach to preventing, detecting and responding to sexual abuse and sexual harassment allegations. Zero tolerance posters are displayed throughout the facility. Both facility staff and clients are provided with a variety of opportunities to become aware of the PREA. A review of training records and staff interviews confirmed that staff members who have regular or frequent contact with clients receive PREA related training during new employee training, on e-learning programs and annually at refresher training. The PREA Compliance Manager was interviewed and advised that she has sufficient time and authority to coordinate efforts to comply with PREA standards. Compliance with this standard was determined through staff and client interviews, the auditor's observation of posters and notifications and policy review. All written documents are available in English and Spanish. Interpretive services are available for clients who do not speak or read English, Spanish or other languages. All interviews with staff and clients confirmed that each was aware of the zero-tolerance policy towards all forms of sexual abuse/sexual harassment. The facility diagram, staff schedule, Safety Committee yearly calendar and TJD policy PREA 101 address the requirements of the standard. The Agency's administration reviews the staffing plans on an annual basis and would make adjustments based on the requirements of this standard. Interviews with the District Director and the Residential Managers revealed compliance with the PREA is a top priority and other safety and security issues are always a primary focus when they consider and review the staffing plan. The auditor reviewed the facility staffing plan and it was determined to be acceptable. The facility has been provided with all necessary resources to support the programs and procedures to ensure compliance with the PREA standards. The audit included an examination of all video monitoring systems, design of the facility, potential “blind spots”, client access to telephones and computers, documentation (staffing rosters) and staff interviews. There was sufficient staffing deployment and observation cameras with recording capabilities to ensure a safe environment for clients and staff. The review of supervisor unannounced PREA rounds documentation confirmed that intermediate-level or higher-level supervisors conduct and document such visits throughout the institution. Staff are prohibited from alerting other employees regarding unannounced rounds. Interviews with housing unit officers also confirmed that random, unannounced rounds are conducted by management staff. An examination of additional supporting documentation, to include, but not limited to, unannounced rounds log entries and the annual staffing review, also confirm the facility’s compliance with this standard.

TJD policies Res #22, #23 and #24 address the requirements of the standard. The SCRTF has a rated capacity exceeding 50 clients. The institution does not permit cross-gender strip searches or cross-gender visual body cavity searches under any circumstances. Staff members are trained to conduct all searches in a professional manner, confirmed through auditor observations of the search procedures and client interviews. Clients, residential officers and administrative staff stated clients are allowed to shower, dress and use the toilet privately without being viewed by the opposite gender. Clients and staff reported that employees of the opposite gender announce their presence before entering the housing areas. This was observed by the auditor during the facility tour. Staff members were aware of the policy prohibiting the search of transgender or intersex residents to only determine their genital status. Compliance with this standard was determined through staff and client interviews, policy review and a review of the staff training curriculum.

#### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

#### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

TJD policies PERS #2, #3, #4, #6, Dept #42 and #43 address the requirements of the standard. The Human Resource Manager was interviewed and stated that all components of this standard have been met (reviewed with the auditor during the interview). All employees have had their background checks completed through the National Crime Information Center. Staff promotions require a background check before the promotion is approved. A tracking system is in place to ensure that updated background checks are conducted annually during a performance review process. Policy clearly states the submission of false information by any applicant is grounds for termination. The TJD makes its "best efforts" to contact all prior employers for information on substantiated allegations of sexual abuse or resignations which occurred, during a pending investigation of sexual abuse. The Agency also provides information on substantiated allegations of sexual abuse/sexual harassment on a former employee, when requested from an employer for whom such employee has applied to work, unless prohibited by law. Appropriate licensing and certifying agencies would be notified when professional staff members are terminated for substantiated allegations of sexual abuse/sexual harassment. Documentation on file, which was examined by the auditor, and an interview with

the Human Resource Manager support a finding that the facility is in compliance with this standard.

When installing or updating the video monitoring system, the SCBTF staff members consider how such changes may enhance the facility's ability to protect clients from sexual abuse. The facility staff indicated that there have been some changes to existing monitoring programs that

have also been completed. Since August 20, 2012, there have been no substantial expansions/modifications to the facility or in the TJD.

#### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

**Instructions for Overall Compliance Determination Narrative**

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

TJD policy PREA-102 and two Memoranda of Understanding address the requirements of the standard. The facility has no medical or mental health staff. Facility staff members were interviewed concerning this standard and all were knowledgeable of procedures to secure and obtain usable physical evidence when sexual abuse is alleged. Staff members were aware of who was responsible for conducting investigations. The local police department may be involved, as well as SCRTF staff, in conducting investigations. Clients are to be transported to a local hospital for forensic exams; the facility has a Memorandum of Understanding with the local hospital to provide these services. Policy requires that forensic medical examinations be performed without financial cost to the client. Policy also requires that a victim advocate be made available to client victims of sexual abuse to provide support through the forensic medical examination process, therapy and investigatory interviews. The facility has a Memorandum of Understanding with the victim advocacy program covering the TJD, as confirmed by the auditor’s interview with a local victim advocate representative. There were no PREA related investigations or forensic medical examinations conducted, during the previous 12 months. Compliance with this standard was determined through interviews with staff, a victim advocate and a hospital nurse (SANE) and policy review.

TJD policies Dept #13 and #14 address the requirements of the standard. Policy requires administrative or criminal investigations to be completed on all allegations of sexual abuse/sexual harassment. Administrative investigations are routinely assigned for completion to a Resident Manager. These staff members were interviewed and found to be very knowledgeable concerning their duties and responsibilities in conducting an investigation of sexual abuse or sexual harassment. The Sioux City Police Department may conduct criminal investigations for the facility. All investigators have been trained to conduct investigations in a

correctional institution. There were no allegations of sexual abuse investigated during previous 12 months. Compliance with this standard was determined through staff interviews, to include the Investigators, policy review and an examination of the investigative files.

TJD policies PREA-103, Dept #10, #11, #42, PERS #2 and an e-learning program address the requirements of the standard. All employees are initially provided training on the PREA during new hire orientation. The Iowa Department of Corrections provides extensive web-based e-learning of the PREA standards training which all staff are required to successfully complete initially and annually. Policy requires refresher training to ensure that all employees know the Agency's current sexual abuse and sexual harassment policies and procedures. In practice, annual refresher training, including PREA topics, has been provided to all employees. Staff acknowledge in writing their understanding of the PREA. All staff interviewed stated they had received PREA training and have a PREA checklist at their desk to aid in their response to a PREA violation (observed by the auditor). The volunteer was interviewed by the auditor; however, the contractor was not available). The training is documented and copies of training sign-in sheets and other related documents were reviewed by the auditor. Facility staff members meet periodically with clients to give them an opportunity to ask questions and present any concerns. There are zero tolerance posters throughout the facility, a "hot line" telephone number to call to report sexual abuse or sexual harassment and contact information for the IDOC Ombudsman's Office. #### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. TJD policies Res #3 and #30 and the Sexual Violence Propensity Assessment Scoring Guide address the requirements of the standard. Each element of the standard is covered in the Sexual Violence Propensity Assessment Scoring Guide. All clients are assessed at intake immediately upon arrival at the facility for their risk of being sexually abused or harassed by other clients or being sexually abusive towards other clients. A trained Residential Officer screens all new arrivals upon admission to the facility when the client arrives at the facility. The facility staff members review all relevant information from other facilities and continue to reassess when additional information is received. Clients are also reassessed within 30 days of arrival. Staff and client interviews and the review of screening documentation and established policy confirm the facility's compliance with this standard. Screening information is only released to staff that have a need to know.

### Auditor Overall Compliance Determination

### Instructions for Overall Compliance Determination Narrative

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

TJD policies Res #3 and #30 and ICON Assessments meet the mandates of this standard. Housing and program assignments are made on a case-by-case basis for all residents, with continued monitoring and follow up as necessary. The facility does not have dedicated housing for gay, bisexual, transgender or intersex clients. Youthful clients are not housed at the facility. Agency and facility policy require the use of a screening instrument (reviewed by auditor) to determine proper housing, bed assignment, work assignment, education and other program assignments. The goal is to keep clients at high risk of being sexually abused/sexually harassed separate from those clients who are at a high risk of being sexually abusive. Clients are not placed in housing units based solely on their sexual identification or status. There were no clients who self-identified as being transgender or intersex housed at the SCRTF. During the audit, management staff indicated transgender and intersex clients would be reassessed biannually and their own views regarding his/her own safety would be given serious consideration. They would also be given the opportunity to shower separately from other clients. Interviews with staff and clients, observations of the facility and an examination of screening documentation confirm the facility's compliance to this standard

TJD policies PERS #6, Res #20, Dept #42 and #43 and IDOC WR/OWI 26 and 45 meet the mandates of this standard. The policy requires the use of a screening instrument to determine proper housing, bed, work, education and program assignments. A review of documentation and interviews with staff and clients confirmed that there are multiple ways (including verbally, in writing, anonymously, privately, "hot line" telephone calls, contact with the Iowa Department of Corrections and an advocacy center contact) for clients to report sexual abuse or sexual harassment. Staff document all allegations reported from all sources. There are posters and other documents, on display throughout the facility, as observed by the auditor, that explain reporting methods. Additionally, the PREA intake packet, provided to residents in English or Spanish upon intake, lists multiple venues for residents to report sexual abuse or sexual harassment. The facility does have a MOU with a local victim advocacy center to provide support services relevant to this standard. RAINN (Rape, Abuse and Incest National Network) and JDI (Justice Detention International), national victim advocacy agencies, were contacted by the auditor. RAINN referred the auditor to the local victim advocate and JDI had no information pertaining to the SCRTF. Documentation review, observed postings and interviews with clients and staff confirm the facility is in compliance with this standard.

TJD policy Res #20 addresses the mandates of this standard. Clients may file a grievance, however, all allegations of sexual abuse or sexual harassment, when received by staff members, would immediately result in an administrative or criminal investigation. There is no time limit when a client may submit a grievance regarding an allegation of sexual abuse. Policy states that a client who alleges sexual abuse may submit a grievance without submitting it to the staff member who is the subject of the complaint and that such grievance is not referred to a staff member who is the subject of the complaint under investigation. Third parties, including fellow clients, staff members, family members, attorneys and outside advocates, shall be permitted to assist in filing requests for administrative remedies relating to allegations of sexual abuse. The policy allows for an emergency grievance to be filed by clients who feel they are at imminent risk of sexual abuse. There were no grievances filed concerning sexual abuse or sexual harassment, during the previous 12 months. Documentation review and interviews with clients and staff confirm the facility is in compliance with this standard.

Facility administrative staff members are free to make, by policy, staffing; termination; or staff re-assignment decisions for the purpose of protecting clients from contact with abusers. Staff interviews and a review of policy confirm the facility's compliance with this standard.

### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

TJD policy PREA-106 addresses the requirements of this standard. The policy prohibits any type of retaliation against any staff member or client who has reported sexual abuse or sexual

harassment or who cooperated in any PREA violation investigation. A Residential Manager is designated the Retaliation Monitor. She was interviewed and stated she would conduct checks with a client or staff member on a regular basis for at least 90 days or beyond, if needed, to ensure they are safe from retaliation. There have been no cases of actual or suspected retaliation, during the previous 12 months. Staff interviews and a review of policy confirm the facility's compliance with this standard.

### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

TJD policy PREA-107 and PERS #6 address the requirements of the standard. A Residential Manager would normally conduct administrative investigations within the facility. Criminal investigations are referred to the Sioux City Police Department and that agency would confer with the county prosecutor to determine if prosecution would be pursued. All investigators have been trained to conduct investigations in confined settings. The credibility of an alleged victim, suspect or witness is assessed on an individual basis and is not determined by the person's status as client or staff. The facility does not require a resident who alleges sexual abuse to submit to a polygraph examination or other truth assessment device as a condition for proceeding with the investigation of such an allegation. There were no administrative or criminal investigations, during this audit period. The Residential Managers stated the facility would cooperate fully with any outside agency that conducts an investigation. Staff interviews and a review of policy confirm the facility's compliance to this standard.

### Standard 115.272: Evidentiary standard for administrative investigations

**All Yes/No Questions Must Be Answered by the Auditor to Complete the Report**

### 115.272 (a)

- Is it true that the agency does not impose a standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated?  Yes  No

### Auditor Overall Compliance Determination

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

TJD policy PREA-107 addresses the requirements of the standard. The evidence standard is a "preponderance of the evidence" in determining whether allegations of sexual abuse or sexual harassment are substantiated. The investigators, when interviewed, were aware of the evidence standard.

- Does Not Meet Standard** (*Requires Corrective Action*)

**Instructions for Overall Compliance Determination Narrative**

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

TJD policy PREA-107 addresses the requirements of the standard. Policy requires that a client victim be informed of the determination of an investigation into an allegation of sexual abuse or sexual harassment. If the allegation and investigation involves staff, the facility is to inform the victim whenever the staff member is no longer employed in the client’s facility, when the staff member has been indicted on a charge related to sexual abuse of the client within the facility or when the staff member has been convicted on a charge related to sexual abuse of the client within the facility. There were no administrative or criminal investigations completed during the audit period; therefore, no notifications were necessary. Compliance with this standard was determined through interviews with facility investigators and policy review.

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

TJD policies PREA-108, Dept #13, #14 and #42 address the requirements of the standard. Staff members are subject to disciplinary sanctions for violating Agency sexual abuse or sexual harassment policies. The facility has not issued any disciplinary sanctions to staff as a result of sexual misconduct with clients, during the previous 12 months. There have not been any reported or suspected cases of staff engaging in sexual activity with clients, during the previous 12 months. Policy states that staff members are subject to disciplinary sanctions up to and including discharge for violating agency sexual abuse or sexual harassment policies. Policy also states a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation. There is no Collective Bargaining Agreement between the TJD and the staff. However, policy allows for all required disciplinary sanctions against staff, including termination, for sexual abuse or sexual harassment of a client. An interview with a facility investigator and the Human Resource Manager and a review of documentation confirm that the facility is in compliance with this standard.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

TJD policy PREA-108 addresses the mandates of this standard. Any contractor or volunteer who engages in sexual abuse/sexual harassment is prohibited from contact with clients and will be reported to law enforcement agencies and to relevant licensing bodies, unless the activity was clearly not criminal. In the past 12 months, there were no contractors or volunteers reported to have engaged in any act of sexual abuse with a client. The facility would take appropriate remedial measures, and consider prohibiting further contact with clients, in the event of any violation of Agency sexual abuse or sexual harassment policies by a contractor or volunteer. Interviews with staff and a volunteer and an examination of policy documentation confirm compliance with this standard.

- Does the agency always refrain from considering non-coercive sexual activity between residents to be sexual abuse? (N/A if the agency does not prohibit all sexual activity between residents.)

**Auditor Overall Compliance Determination**

- Exceeds Standard** (*Substantially exceeds requirement of standards*)

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

TJD policy PREA-108 and IDOC policy WR/OWI address the requirements of the standard. Policy states that clients shall be subject to disciplinary sanctions pursuant to a formal disciplinary process following an administrative finding that the client engaged in client-on-client sexual abuse or following a criminal finding of guilt for client-on-client sexual abuse. Sanctions shall be commensurate with the nature and circumstances of the abuse committed, the client’s disciplinary history and the sanctions imposed for comparable offenses by other clients with similar histories. The disciplinary process shall consider whether a client’s mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed. The facility may offer therapy, counseling or other interventions designed to address and correct underlying reasons or motivations for the abuse. Also, the aggressor would be transferred to the IDOC. The facility does not discipline clients who make allegations in good faith, even if the investigation does not establish evidence sufficient to substantiate the allegation. An interview with a facility investigator and a review of policy confirm the facility’s compliance with this standard.

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

TJD policy PREA-110 and the Incident Review Form address the requirements of the standard. Administrative and/or criminal investigations are completed on all allegations of sexual abuse and sexual harassment. Four facility staff members, to include the Residential Managers, have been properly trained on conducting sexual abuse investigations in a correctional setting. The Sioux City Police Department would conduct criminal investigations for the facility. There were no administrative or criminal allegations of sexual abuse, during the previous 12 months. The sexual abuse incident review team would consist of the District Director and the Residential Managers. All cases would be reviewed by the incident review team within 30 days of the conclusion of the investigation as required by policy, taking into consideration all elements listed in 115.286(d). The auditor reviewed the form utilized for sexual abuse incident reviews. Compliance with this standard was determined by interviews of administrative staff, policy review and a review of the IDOC PREA Incident Review Form.
